Subject: Request for Information regarding the Lower Ley Creek subsite of the Onondaga Lake Superfund site

Dear Mr. Stamey,

We are in receipt of your request for an additional two week extension to respond to our information request letter regarding the above-referenced matter. As you know, we granted you a fifty day extension beyond the original thirty days provided in our early May information request letter (see message below), thus resulting in a deadline of today, July 31. As we discussed today, we are willing to provide you with an additional fifteen days, until August 15, 2014, so that you can perform a more thorough review of your records, etc., and ultimately provide an improved response.

If you have further questions, you may contact me via email or at 212 637-3165.

Jim Doyle

Dear Mr. Stamey,

We have received your request for an extension beyond the thirty days granted in our 104e information request letter. We can't give you an extension to August 31 but we can give you a 50 day extension to July 31. Please send us as much information as you are able to gather as of July 31, 2014 and we will reassess where we stand at that time.

In your letter you also requested a conference call to discuss the requested items. Jim Doyle and I are available for a conference call on Wednesday afternoon, June 11, 2014. If that date does not work for you, we are also available June 23, 24 or 26. Please let me know what date and time works best for you.

Regards,

Pamela Tames, P.E.
